

Nibiru and The End of Days

Until last month, I believed the Prophecies of Daniel, and John in Revelation were nothing more than dreams and cryptic visions that had no real relevance to our current world.

A series of 'coincidences' has changed my view. A friend at work came into the office and said that he heard on a Radio show that the earth was going to be hit by a major asteroid this year. He said that the government knows and is covering up the facts. I smiled and told him that it was pretty unlikely, certainly nothing to lose sleep over. At lunch that afternoon I was reading CNN.com and

read an article on a conference of astronomers discussing how to prevent a major asteroid, or comet impact. This caught my attention since the timing was so coincidental.

I decided to look into the idea using the Torah Codes. Maybe the codes can be used to forecast astronomical events, since in principal, we have a pretty good idea of orbits of identified astronomical objects. Some of the larger asteroids are named, and we know when they will make a close approach. This could remove some of the uncertainty around using the Torah Codes to predict future events.

I did find some indication that the asteroid Toutatis, scheduled for closest approach on September 29 (14 Tishri) might pose some danger. This asteroid should miss Earth by about 4 LD (Lunar Distances). That is about 4 times the distance between the Earth and the moon. This is scheduled to be the closest known approach of a large asteroid over the next 30 years. *If you are interested in checking the codes for asteroids, you can get the information on NASA's NEO (Near Earth Object) program site. This site has other links to NEO sites including MPC (The Minor Planet Center) at Harvard.*

My friend ordered the book 'Code Red' that the authors on the radio program were plugging. We were both very disappointed in the material in the book there were no dates and very little substance. The author had a repeated dream seeing the earth from space being struck by a large asteroid. The one piece of information in the book that *was* interesting to me was about Planet X, Nibiru (to the Sumerians) also known as Marduk (to the Babylonians). The authors quoted a book, "The 12th Planet" by Zecharia Sitchin. I had purchased a copy of this book earlier this year for a different reason. Another coincidence?

The following is an excerpt from an article I found on a website devoted to Planet-X, Hopi Prophecy, etc. The author was unknown:

A book called The 12th Planet written in 1976 by Zechariah Sitchin tells of the ancient Sumerian legends of a planet with a comet-like orbit that came into our area of the solar system every 3600 years. The inhabitants of this planet were like gods to the earth natives. They shuttled from their planet to earth with rockets and mined gold to take back to their home planet, Nibiru. He contends they were the ones the Bible in Genesis refers to as the Nefilim, and as giants.

Could this same Planet X or 12th Planet be the source of the many myths and legends that describe comets as portents of doom, and speak of battling planets? Could it be the cause of the periodic destruction's of great civilisations of the past by earthquakes, volcanoes, tidal waves, as described in many ancient texts, including the Bible, and by Velikovsky? Does Planet X cause a pole shift on earth as it passes by?

After seeing the Comet Shoemaker-Levy crash into the planet Jupiter a few years ago, astronomers now realise the possibility of asteroids and comets similarly affecting earth.

Their most recent discoveries of planets circling other stars, planets with elliptical orbits, circling two stars, "rogue" planets, methane "brown-dwarf" planets, are all proof that no matter how certain science is one day that something is silly and impossible, they can be proven quite wrong the next. The best scientists are, therefore, not the hardened sceptics, but those who continually keep an open mind.

History records many names for Planet X. The Sumerian's called it the 12th planet or Nibiru (translates into; planet of passing). The Babylonians and Mesopotamians called it Marduk, The King of The Heavens and The Great Heavenly Body. The ancient Hebrews referred to it as the Winged Globe because

of its long orbit high among the stars. The Greeks called it Nemesis. (Its most telling name) Prophets have named it The Blue Star, The Red Star, The Fiery Messenger, and The Comet of Doom among others. No matter what the name used, it's the same object that has the same effects before and during its passage of earth. The Sumerians also had a name for it's approximate 3600-year orbit (A Shar). The ancient Hindu astronomers named Treta Yuga (3600 years) and the destruction it causes Kali Yuga.

I have also attached another excerpt from an article by Mark Hazelwood:

In 1985, numerous astronomers were intrigued with the "Nemesis Theory." This was proposed most recently by Walter Alvarez of the University of California and his father, the Nobel prize winning physicist Luis Alvarez. They noticed regular extinctions of various species (including the dinosaurs), and proposed that a comet, "Death Star," or planet periodically brings with it a shower of meteors and smaller comet like objects that wreak havoc, death and destruction to the inner Solar System, including Earth.

In August, 1988, a report by Dr. Robert S. Harrington of the U.S. Naval Laboratory calculated that its mass is probably four times that of Earth. Planet X is 4 to 5 times larger than of earth, 20-25 times its mass and nearly 100 times as dense. X is a professional wrestler of the planetary community compared to other planets of our solar system. It is a slow smoldering brown dwarf star.

When X passes between earth and our sun, earth will align to its strong magnetic or gravitation temporarily, instead of our sun's.

For a short while X will be earth's strongest gravitational voice or influence. Earth's rotation will then pause for a couple days, like it has many times before recorded in several texts from ancient history.

The controllers of NASA and its insiders are fully aware of this. Planet X's destruction and disruption of Earth should change your view of ancient history. The ancients were not the unsophisticated people common history books have led you to believe. Earth societies have

reached a pinnacle of development several times before only to be put back in technological and evolutionary time by the wrecking ball of X. Every time the ones left to pick up the pieces and start building over were so busy surviving for the first few decades afterwards, that the elevated cultures they originated from disappeared into myth and folklore.

Many of the advances and discoveries of our so-called modern world took centuries to be rediscovered anew. Listen closely to whatever texts and knowledge from our ancient ancestors that still remain. Their truth is our truth.

My Note: The strong gravitational forces associated with such a Planet-X would probably disturb the orbits of asteroids, or comets... possibly diverting them towards earth? Also earth's magnetic field has been shrinking over the past few years leading some scientists to speculate that a polar shift may be approaching (over the next 200-1000 years).

Nibiru in the Torah Codes

With this information in mind, I began searching the Torah Codes for information on Nibiru, and Marduk. What I have discovered is troubling. **There is strong evidence in the Torah Codes for the existence of Nibiru, a brownish star or planet with a solid 'crystalline' core.** One matrix puts Nibiru (at it's 2nd smallest skip 11 in the Torah) in the same matrix with both forms of End of Days (popularized by Michael Drosnin). There is a very significant date "29 Elul" that appears at ELS -6 (this is the lowest skip in the entire Torah) in 3 different matrices. . It is also symbolic that 29 Elul is the last day of the Jewish Year (End of Days indeed?). A third matrix may imply that the fateful year is 5764 (2003-2004) in the Jewish calendar.

Note: Since building the original matrices for this document I have spent several days looking for the most likely dates for an encounter with Nibiru.

Based on this research the most likely (statistically significant) dates are:

- 5 Lyyar 5764 (April 26, 2004)
- 12 Lyyar 5766 (May 10, 2006)
- 29 Elul 5772 (September 16, 2012)

These matrices have been added at the end of the document in a section titled: **Date/Year Possibilities.**

Obviously, using the Torah Codes on future events is risky at best. However, the implications of this discovery are such that I must share this information with other codes researchers:

End of Days

This matrix places Nibiru at it's 2nd lowest ELS (11) in the Torah in the matrix where both forms of End of Days occur. This is the same matrix that Michael Drosnin published in his book "Bible Code II - The Countdown". The matrix includes the word appointment on the same line as Nibiru... An appointment with Nibiru seems strong at the End of Days. The names of Arafat, Sharon and Bush also occur. This places the timeframe in the next few years.

Term	Translation	Skip	R Factor	(in Matrix)	Start
קצה ימין	End of Days	-7551	0.037	2.353	Deuteronomy Ch 19 V 10 Letter 14
ניבירן	Nibiru	-11	0.406	2.722	Numbers Ch 14 V 38 Letter 29
באחרית הימים	At the end of days	1	0.000	0.000	Deuteronomy Ch 4 V 30 Letter 24
כוכב	star n.	-6	-1.137	1.179	Deuteronomy Ch 4 V 30 Letter 12
ערפאת	Arafat	1	0.000	2.316	Deuteronomy Ch 9 V 6 Letter 57
שרון	Sharon	2	-0.825	1.491	Numbers Ch 23 V 9 Letter 24
בוש	Bush	7551	-5.653	-3.337	Numbers Ch 14 V 38 Letter 7
מינוי	appointment n.	-7	-0.810	1.506	Numbers Ch 14 V 38 Letter 25

The ELS reference is 7551 characters between rows.
There are 8 displayed terms in the matrix.
The matrix starts at Numbers Ch 14 V 37 Letter 13 and ends at Deuteronomy Ch 19 V 10 Letter 41.
The matrix spans 68015 characters of the surface text.

The matrix has 10 rows, is 56 columns wide and contains a total of 560 characters.

There are 6 significant terms in the matrix.

The matrix odds are 1 chance in 1,778,279,400 in favour of significance.

The cumulative 'R' Factor for the displayed matrix is 9.25.

Hidden Star

This matrix searches for the term Hidden (or latent) - Planet, Star, Orb. There is a direct hit on 29th Elul in it's lowest ELS in the entire Torah. This matrix supports the Nibiru matrix that follows. There are only 2 occurrences of Hidden Planet/Orb in the Torah.

Term	Translation	Skip	R Factor	(in Matrix)	Start
חבו יכוכב	Hidden Star	13536	0.376	3.224	Leviticus Ch 14 V 7 Letter 35
כטאלול	29 Elul	-6	1.540	4.388	Numbers Ch 24 V 6 Letter 34
למחוצ	crush v.	1	-1.279	1.569	Leviticus Ch 6 V 4 Letter 39

The ELS reference is 13536 characters between rows.
 There are 3 displayed terms in the matrix.
 The matrix starts at Leviticus Ch 6 V 4 Letter 36 and ends at Deuteronomy Ch 4 V 1 Letter 83.
 The matrix spans 108319 characters of the surface text.
 The matrix has 9 rows, is 31 columns wide and contains a total of 279 characters.
 There are 3 significant terms in the matrix.
 The matrix odds are 1 chance in 2152745.943 in favour of significance.
 The cumulative 'R' Factor for the displayed matrix is 6.333.

29 Elul

Hidden Star

Nibiru

The next matrix looks for the term Nibiru. This matrix is at ELS 39 (This is the 5th shortest ELS in the Torah (of approx 2900)). There is a direct hit on the surface text "At the End of Days". There is a grouping of Star/Planet/Orb, Brownish, Crystalline, and Cosmos. Another cluster connects the terms Phony, Appearance, and Scientist. (If you search the web for scientist's opinions on Planet-X, Nibiru, you'll find this is the prevailing view). Once again this matrix includes the same occurrence of 29 Elul at it's minimum skip of -6. The surface text 'adjacent' intersecting Nibiru implies that Nibiru is adjacent 'At The End of Days'. 'Quickness' implies the change will be sudden (Behold, I come like a thief ...). Earth and chilliness were added because the impact of an asteroid, or comet, or large-scale volcanic eruptions would change the global weather patterns... possibly triggering a new ice-age:

Term	Translation	Skip	R Factor	(in Matrix)	Start
נִיבִירָו	Nibiru	39	1.016		1.619 Numbers Ch 24 V 14 Letter 7
בִּנְכוּכָב	asteroid n.	113	1.438		2.040 Numbers Ch 24 V 13 Letter 59
כַּמְאֲלוּל	29 Elul	-6	3.083		3.685 Numbers Ch 24 V 6 Letter 34
בְּאַחֲרֵיתֵהּ יָמִים	At the end of days	1	0.000		0.000 Numbers Ch 24 V 14 Letter 42

The ELS reference is 39 characters between rows.

There are 17 displayed terms in the matrix.

The matrix starts at Numbers Ch 23 V 29 Letter 3 and ends at Numbers Ch 25 V 4 Letter 40.

The matrix spans 1404 characters of the surface text.

The matrix has 36 rows, is 39 columns wide and contains a total of 1404 characters.

There are 14 significant terms in the matrix.

The matrix odds are 1 chance in 6.966E20 in favour of significance.

The cumulative 'R' Factor for the displayed matrix is 20.843.

Year 5764

Neither of the above matrices have a strong indication of the year when these changes will occur. To attempt to determine this, I searched the Torah using the year as the main term (I looked over a period of the next 10 years). The current year appears to me to be the best fit (unfortunately!!). This is the matrix for the current year 5764. In a slightly larger matrix (ie 60X50) there are 2 occurrences of Nibiru, and one of Marduk. This is the lowest ELS (47) for Year 5764 in the entire Torah. The year is crossed by the word appointment (This translation I'm not 100% sure of... it is in the Bible Codes 2000 dictionary, not in Code Finder, Ben Yehuda's, or Webster's). The word return is in close proximity. I interpret this as Year 5764, Return Appointment. The word Nibiru occurs at ELS 47 its 6th shortest ELS in the Torah. The following terms cross or intersect Nibiru :

**Block/muzzle/prevent & Answer
Earth, Calmness/Tranquility, & Concealment**

My interpretation of these terms is that there may be some intentional or unintentional concealment of the approach of Nibiru. This results in a false sense of security. (Roy noticed the extended term **'And from the wind-please, it will destroy trees. In 5764 Yah is for me.'**) It's a bit chilling since any large asteroid or comet impact on land will have hurricane force winds and crush trees.

Term	Translation	Skip	R Factor	(in Matrix)	Start

יעוד	destiny n.	2	0.468	1.246	Exodus Ch 13 V 22 Letter 34

The ELS reference is 47 characters between rows.

There are 20 displayed terms in the matrix.

The matrix starts at Exodus Ch 13 V 22 Letter 11 and ends at Exodus Ch 14 V 25 Letter 27.

The matrix spans 1457 characters of the surface text.

The matrix has 31 rows, is 47 columns wide and contains a total of 1457 characters.

There are 18 significant terms in the matrix.

The matrix odds are 1 chance in 5.02158405472873E43 in favour of significance.

The cumulative 'R' Factor for the displayed matrix is 43.701.

Date/Year Possibilities

I was troubled by the fact that I was unable to place 29 Elul in the 5764 matrix. So I have spent some time looking for potentially significant dates associated with Nibiru. The following are the 3 most likely possibilities. The first matrix is a subset of the **Year 5764** matrix shown above. The second is a matrix for **12th Lyyar, 5766** and the final matrix is for the date **29th Elul, 5772**:

5th Lyyar 5764 (April 26, 2004)

In the above matrix for **Year 5764** the only reasonably significant date is 5th Lyyar. That is April 26, 2004. The matrix looks significant. The words calmness/tranquility and concealment overlap the date 5 Lyyar, which intersects Nibiru. Earth at skip 5 shares a **ן** with 5 Lyyar.

Term	Translation	Skip	R Factor	(in Matrix)	Start
_הַתְּשׁוּדָה	Year 5764	47	-0.042	2.694	Exodus Ch 14 V 16 Letter 24
נִיבִירָו	Nibiru	47	-0.656	2.080	Exodus Ch 14 V 10 Letter 28
הַאֵיִל	5 lyyar	-5	-1.200	1.536	Exodus Ch 14 V 11 Letter 12
הָאָרֶץ	earth n.	5	1.284	1.452	Exodus Ch 14 V 11 Letter 12

The ELS reference is 47 characters between rows.
There are 4 displayed terms in the matrix.

The matrix starts at Exodus Ch 14 V 10 Letter 11 and ends at Exodus Ch 14 V 19 Letter 69.

The matrix spans 607 characters of the surface text.

The matrix has 13 rows, is 43 columns wide and contains a total of 559 characters.

There are 3 significant terms in the matrix.

The matrix odds are 1 chance in 117019.067 in favour of significance.

The cumulative 'R' Factor for the displayed matrix is 5.068.

Year 5764

In addition: 5 lyyar occurs at minimum skip in the Torah of -2 in the same Matrix with both forms of End of Days. (6 Sivan is also significant in this array) This is definitely not a comforting thought as the statistical significance seems beyond chance. If 6 Sivan is excluded, the matrix odds are 1 chance in 16182.927 in favour of significance for the 2 terms. (Matrix R value = 4.209).

Term	Translation	Skip	R Factor	(in Matrix)	Start End
קצה ימין	End of Days	-7551	-0.506	1.961	Deuteronomy Ch 19 V 10 Letter 14

Year 5772

Conclusion

These matrices appear to be significant enough to warrant further study. I have been studying the codes for about 1.5 years (so I haven't really scratched the surface). I do not have an in-depth knowledge of Hebrew. I rely on the program dictionaries and the transliteration guide written by Roy Reinhold for the Code Finder Tutorial.

I have only spent a little over 2 weeks working on these matrices. **These are preliminary results.** I have not spent a large amount of time looking for short words, or combinations of short words that may be significant. I have also included some terms that are not significant $< R=1.2$. **Because of the nature of this material, I felt that time is of the essence.**

At this point the 5 Lyar, 5764 date seems significant. The Year 5764 matrix does not specifically detail what event might take place on that date (ie. Discovery or public disclosure of the existence of Nibiru, Actual encounter with Nibiru or it's gravitational or magnetic field.). Or it could be a statistically unlikely coincidence.

I believe that it is essential to have others validate (or invalidate) these results. I would appreciate any input. If I have made any errors in transliteration, or included terms that do not make sense, please let me know. **I certainly hope these matrices or my interpretations are false.** I truly hope I made some mistake. I have never believed in the prophets (and kooks) who have proclaimed the end of the world... and I certainly do not want to become one.

Any questions or comments on this material can be addressed to:
